

FALL 2010

Training focus

Welcome Reynolds and Reynolds

Employees from Reynolds and Reynolds completed their inaugural pistol league last month, and all involved had lots of fun! Following the completion of the First Shots class, Jeff designed a course of fire for them to shoot on a weekly basis. The league ran for eight weeks, and the five highest scores were used to determine the winners. Employees were required to have one other league member present to score their targets and self-appointed league "Czar" James Bell tallied the scores weekly and distributed the results through company e-mail. All employees received a FREE Associate membership, and many took advantage of this added benefit and engage in recreational shooting on a regular basis, and some have already introduced family members and friends to shooting.

The following is a list of the league winners:

First Place	Scott Michael
Second Place	Kyle Blankenship
Third Place	John Martin
High Female	Liz Szaruga

The Fall League will begin in September. We will also be holding Basic handgun and .22 rifle training classes. The dates for all will be announced via company email.

Crossbreed Holsters

Simtrainer has partnered with Crossbreed Holsters and now stocks the increasingly popular Super Tuck inside the waistband holster. This innovative holster design has literally solved the shortcomings of carrying inside the waistband. We have most popular models in stock and we place orders on a monthly basis. Orders take about 3-4 weeks to be filled and each holster comes with a lifetime guarantee and a two week try out period. Take the opportunity to try one of the demo models if you are interested in this carry option.

Radio Show pre-empted by UD Football

"Shootin' from the Hip" will not be on the air from Sept. 4 thru Nov. 13, **except for Sept. 25 and Oct. 9**, due to the broadcast of UD Football.

Be sure to rejoin us when we are back on the air Nov. 20. Thanks to all our loyal supporters and **remember to vote on Nov. 2** to get things back to the way they should be.

UPCOMING TRAINING

AR/M-4 Rifle Training

Our very popular AR/M-4 rifle training courses are back by popular demand. The basic rifle class is designed for those with little to no experience handling or shooting such rifles and includes instruction in basic handling, marksmanship principles and care, maintenance and cleaning.

Our intermediate course is designed for those who are already competent with the M-4 rifle and interested in more challenging training aimed at skill enhancement including positional and longer range shooting and exposure to use of accessory options like optics and slings. Class size is limited, so register early. Needed equipment and location will be given upon registration.

Basic Rifle

Sat. October 16, 9am to 5pm

Cost: \$199

Intermediate Rifle

Sat. October 16, 9am to 1pm

Cost: \$99

Shotgun Training

Once again Simtrainer is responding to the growing demand of our members who are interested in adding this effective weapon to their home and self defense options.

We have recently arrived at a solution to the shot shell wadding contaminating our bullet trap, so we are offering this training for those interested in learning how to safely handle, shoot, care for and clean pump action shotguns.

The first part of the class will be held at the range and will cover safety, nomenclature, functional operation and care and cleaning. Attendees will then be shown how to load, charge and properly shoulder mount the shotgun for firing. Students will then practice these skills in a controlled live fire session on the indoor range. The second half of the class will be held at an **outdoor range** and will involve patterning the shotgun and shooting at clay pigeons.

Sat. Sept. 25

9am to 5pm

Cost: \$99

TUESDAY TACTICAL TRAINING (T³) COMPETITIVE SHOOTING LEAGUE

We completed the Spring 2010 Tuesday Tactical Training (T-3) league in July and the winners were as follows:

1 st Place	Karl Streed
2 nd Place	John Grove
3 rd Place	Brian Sutcliffe

We encourage all of our members to consider shooting, at least occasionally, to challenge yourself to perform in a stressful environment.

A combination of remembering the challenging course of fire, working against the clock, performing in front of your peers and dealing with the natural human response to stress exposes you to the stress-like conditions you will experience in a real-life encounter.

And by the way, we now have the Dayton area's popular Hot Dog guy who sets up outside the range with his portable Hot Dog stand and provides delicious hot dogs, brats and pulled pork. So take the opportunity to stop in and shoot in the league and enjoy some great eats!!!!

GUN CLEANING CLASSES

Simtrainer staff will be offering a series of classes designed to show shooters proper care, maintenance and cleaning of specific weapon systems. Cleaning kits and supplies will be available for purchase or you can bring your own. Check at the range for upcoming course dates.

SMITH & WESSON LUCKY SEVEN OFFER

Smith and Wesson is offering a GREAT deal to the range to promote gun sales. They will give the range a FREE gun for each six guns purchased from the selected categories of weapons being offered in this promotion.

The promotion includes any of the M&P 15 rifles, any of the M&P 15-22 rifles and any of a wide selection of J-Frame revolvers. In addition to the GREAT savings you will realize from purchasing the guns at competitive prices, S&W is offering \$100 rebates on the M&P 15 rifles and \$50 rebates on the revolvers. Simtrainer will also sweeten the deal by offering one hour of instruction, 20 rounds of .223 ammo and an extra magazine (\$100 value) for each M&P 15 ordered.

In order to be fair and consistent in setting prices for the many guns included in this offer, I will take an additional 20% off of the MSRP listed on the S&W website. Simply select the gun you want to purchase and send me an e-mail at jpedro@sim-trainer.com with the model number and I will make sure it is in the list of offered guns and place the order.

All orders must be included on the same invoice, so the deadline to place an order is Sept. 20. This is a great opportunity to help get new guns for the Range program and add a treasured gun to your collection at a great price.

TRAINING TIP

Practice shooting with a purpose at least fifty rounds a month. Choose a target that allows you to get multiple successive sight pictures and spend time practicing loading and charging your firearm and shooting both one and two handed from the low ready position. I also recommend that you periodically use snap caps to provide opportunities to practice clearing malfunctions and to help rid yourself of the habit of anticipating recoil.

GUNS FOR SALE AT REDUCED PRICES

We are selling the following guns from our range gun program and/or our new gun inventory at rock bottom dealer or below prices. Funds will be used to purchase new range guns for our members to try out.

The guns listed are both new and used, but all are being sold at unbeatable prices.
