

Mixed Doubles Course of Fire **Week 1** (5/26-6/12017)

Remember that you have until 6/1/2017 to complete week 1. Unless otherwise indicated, all stages are shot with a fully loaded gun in the low ready shooting position with muzzle pointed down range and forearms resting on rib cage. The command to fire will be a tap on the shoulder by your partner. The non-shooting partner is responsible for keeping track of the time limit. A second tap on the shoulder will signal the end of the stage. Score and paste the targets after each stage. If requested by the shooter, the partner keeping time can call out the half-way point of the time allotted. New targets should be used for the second shooter.

Be sure to advise Simtrainer staff of your scores when finished and retain your results in the event of a scoring discrepancy.

Stage	Target	Distance	# of Shots	Time Limit	Repeat	Total
1	Bowling Pins	15 ft.	5	30 seconds	1x	10shots
2	Bowling Pins	25 ft.	5	60 seconds	1x	10shots

Shooters get 10 points for each pin hit. No points are awarded for hitting the same pin twice at each distance. In other words, **the goal is to hit each pin once at each of the two distances**. However, if any shot hits the line **where two pins overlap** or touch, the shooter gets 10 points for each pin. In addition, the shooter gets an extra shot for each shot that breaks the line where two pins overlap, and bonus points are earned for each extra shot that hits any pin. Be sure to check the target after each series of five shots to see if bonus shots were earned and paste holes. You may need a few extra rounds beyond the required 50 if you are accurate enough to earn bonus shots!

3	LET-530-OC #1	15 ft.	5	10 seconds	0x	5 shots
4	LET-530-OC #2	25 ft.	5	15 seconds	0x	5 shots
5	LET-530-OC #4&5	25 ft.	5	20 seconds	0x	5 shots
6	LET-530-OC #4&5	40 ft.	5	30 seconds	0x	5 shots
7	LET-530-OC #3	40 ft.	5	30 seconds	0x	5 shots
8	LET-530-OC #1-5	50 ft.	5	60 seconds	0x	5 shots

Please note that each stage requires a particular target or combination of targets to be shot. Note that stages 5 and 6 use two target areas and stage 8 requires a shot at each of the five target areas. When scoring the targets give 5 points for shots in the orange area and give 4 points for shots in the grey and 3 points for any shot that breaks the black line. Remember, if the hole in the target breaks the line between two scoring areas, give credit for the higher value.
